

13rd Congress of ASNMT in the East Asia

1 -November 2025

Call for Abstracts

The Asian Society of Nuclear Medicine Technology (ASNMT) invites submissions of abstracts for panel sessions and papers for the 2025 Annual Meeting of Society of Nuclear Medicine, Taiwan (R.O.C) to be held at Taipei Veterans General Hospital Chih-Teh Building, Taipei, Taiwan on November 1, 2025.

This year's theme: **"Hope, Step, and Leap: Advancing into a New Era of Nuclear Medicine"**
AI is changing the game in nuclear medicine—bringing faster, smarter imaging and transforming how we work. At the same time, post-pandemic medical education is opening to more flexible and creative ways of learning. This year's meeting is all about moving forward: sharing new ideas, showcasing innovations, and connecting professionals from across the field. Welcome to join us and be part of the future of nuclear medicine.

Topics of Interest (including but are not limited to):

1. AI-powered applications in nuclear medicine imaging
2. Advances in SPECT and PET technologies
3. Quality assurance and radiation safety in clinical practice
4. Clinical case reports and diagnostic applications
5. Post-pandemic nuclear medicine education (simulation, hybrid learning, etc.)
6. International collaboration and professional development

Abstracts for papers should have a limit for 300 words.

Abstracts will be accepted by email until **15 Sep 2025** to Wendy Kung (jykung@vghtc.gov.tw)

Applicants will be notified of the acceptance of abstracts by 30 Sep 2025 at the latest
